man. Let us have no "milk and water" arrangements; if it is this class of representatives who have proved the most serviceable supporters of the present Government. We hope North York will send forth no uncertain sound. When she speaks, let all Canada hear, and profit by her example.

East Gwillimbury.
A meeting of the friends of the present Parliamentary Opposition, called by advertisement, was held in Sharon, Township of East Gwillimbury, on Thursday evening last. The night being stormy, there was not so many present as could have been wished.

The meeting organized by calling Mr. J. T. Stokes to the chair, and appointing Mr. Irwin Secretary.

The chairman briefly stated the objects of the meeting, and read a printed document from the promoters of the Convention at Toronto, requesting delegates to the proposed Convention to be held in Toronto on the 8th November. The Chairman thought they should also adopt resolutions of instruction to their Delegates, which ought to be done previous to their election, in order that they might understand what position they would have to assume.

Mr. J. Terry then rose to move the first resolution, seconded by Mr. John Irwin.

Resolved—That the Delegates elected to represent this Township in the Convention, to be held in Toronto on the 8th November, next, be instructed to use all their endeavors to secure the adoption of the principle for the Repeal of the Union between Upper and Lower Canada.

Mr. Terry said he was opposed to the Federation scheme, because he could not see a solution to the existing difficulties under which Upper Canada labored. We would then have to contend against the same French influence in the Upper or Federal Legislature, we now have, and the Upper Province would still be held under the heel of the Eastern Province.

Mr. John Irwin said he was not a politician, and could not therefore go readily into the position of things; but he thought, generally, was in Dissolution. He recollected well the evils of Family Compagny; and he had seen the corruption practiced under the Union Act, and was about as bad as the other. If anything, the last state was worse than the first. The people of Lower Canada were a different race—they were Roman Catholics, and Upper Canada was Protestant. If we had a Federal Union it would be still worse—particularly if they had the general management of the whole Province, as Lower Canada Representatives make the will of their Priests, their political principles. The agitation and action on the school question and Representatives according to Population were cases in point. He was therefore in favor of Dissolution.

Mr. Irwin being called upon said, he considered the time had arrived, that some change of a constitutional character should take place; but he believed in the adage, that "Union is strength," and thought we should rather seek a remedy in the Federation of all the British Provinces. We were essentially the same people; and although, as at present constituted, there may have been mal-administration which involved the country in loss, this might be remedied in Federation. By the course pursued by our Commissioner of Crown Lands, emigration to our shores had been stopped, which had retarded the development of our resources. A judicious Federal Government would bring about a change in this respect. As a people we were inferior to Separate Schools and the dictates of foreign Popes and Ecclesiastics; but these questions could be left for each Province to manage. He was decidedly in favor of Federation.

Dr. Hunter being called upon, observed, he was in favor of Dissolution—whether we got Federation or not, he was in favor of that plan. At the time the Union was formed we had a small national debt; but at the result of that Union, it had increased to \$80,000,000; and from an estimate made in the Upper House last year, it amounts to \$150,000,000 on every 100 acres of tilled land in the Province—the farm of the industrious yeomanry of Canada were all mortgaged to this large sum to foreign Capitalists. But it should be borne in mind, while seeking for a dissolution of the Union, that those capitalists hold the whole Province and not a part. Here a strong difficulty presented itself. He was not disposed to think with some, that if a dissolution took place, that the Lower Province would increase the duty upon our imports to any extent, they would only be too glad to get our custom and our traffic; they were more a manufacturing Province and would do nothing to compromise our trade or drive us to another market. Dr. Hunter then explained the views of those favorable to Federation; and concluded by stating that while the plan looked feasible, he was afraid it would take too long to accomplish any real tangible good. His remarks were well received.

Mr. Jackson was called next, who said, there was this objection to Federation—we would have the same influences—the same elements—the same combinations to contend with in the Federal Government, we now have in the present Legislature. We could have very little hope of securing Representation, according to Population in that part of our Government; and even if we did, the numbers altogether sent to that House would be so few that we could not expect more than one or two above those sent from the Eastern Province, which would not make any material difference in controlling legislation.

Mr. John Irwin then made a few remarks, and was followed by others, briefly, after which, the resolution in favor of Dissolution, was put and carried.

On motion of Mr. Irwin, seconded by Mr. John Irwin, it was

Resolved—That in the event of the Delegates not being able to secure a Dissolution of the Union, they direct their efforts

in favor of Federation of Upper and Lower Canada.

The following Delegates were then formally nominated and elected to represent the Township, viz:—H. D. Biles, Esq., Moses Knight, Esq., and Messrs. John Reid, John Terry, and Edwin Hunter.

The meeting shortly after adjourned.

The above is a brief synopsis of the speeches delivered; and we are only sorry that our space prevents us giving a more lengthened report.

ORRHOBY.
A friendly game was played between the

London Landing and Sharon Clubs, on the ground of the latter, on Wednesday the 26th ult. The following is the score furnished, but we have no further particulars.

Sharon Innings. 2nd Innings.

Canada, the old division between Upper and Lower Canada, may be preserved. In the distribution of powers between the Local, or State, and the Federal Governments, the controlling and pervading idea should be to delegates to the Federal Government such authority only as would be essential to the object of the federation; and by necessary consequence to reserve to the Subordinate powers all matters not vested in the Federal Government. The Law Commission, the Post-office, the Land Commission, Patents and Copyrights, the Currency, and such of the Public Works as are of general interest to the whole Province, would form the chief, if not the only subjects with which the General Government should be charged; everything relating to purely Local Improvements, to Education, to the Administration of Justice, to the Militia, to Laws relating to Property, and generally all questions of local concern, in fine, the power to regulate all matters not specifically devolving on the Federal Government—would be lodged in the government of the separate Provinces.

By this division of power the General Government would be relieved from those consequences of a purely local and sectional character, which under our present system, have led to so much strife and ill will, and have enabled an unscrupulous government, by substituting on the mutual jealousies and antipathies of the people of the different sections, to plunge the country into financial difficulties, from which it will take years of frugality and good management to extricate it.

The Committee believe that it is clearly demonstrable that the direct cost of maintaining both the Federal and Local Governments does not exceed that of our present system, while its enormous indirect cost, in consequence of the additional clerks on expenditure involved in the new system, and the more direct responsibility of public servants in the provinces to the people immediately affected by such expenditure, are entirely obviated. The Federal Legislature, having but few subjects to deal with, might dispatch its business in short sessions; and, as the number of members used not be large, the expenses of the Federal Legislature would be but a fraction of our present expenditure, while the cost of maintaining all the Local Governments, if they were modelled on those of the best and most economically governed States of the neighboring Union, could not well be aggregated beyond the limits of our present expenditure.

The proposed system could in no way diminish the importance of the Colony or impair its credit, while it presents the advantage of being susceptible, without any disturbance of the federal economy, of such territorial extensions as circumstances may hereafter render desirable.

Attention is directed to an advertisement from the Recording Service of Newmarket Division S. of T. We hope the Sons of this locality will give the Grand Division such a reception as will be a credit to the community in which they live.

Correspondence.
We wish to be distinctly understood, that we are not responsible for the contents of our correspondents.

King Township.
To the Editor of the New Era.

Dear Sir—As it will soon be time to choose our men to act as Councilors for next year, I take it that the actions of our present men should be canvassed; and if satisfactory, again support them, and if not, choose others.

The great line of contention last year was the Clergy Reserve. By resolution adopted at a late meeting I understand that the question referred to the electors next January, who should fund shall be appropriated to Roads and Bridges or to the support of Education, on the following division: Year—Messrs. Armstrong, Davis and MacNeil; Messrs. Wells and Moore. The first three, I take it, voted as the people desired, and I am happy to think they voted in accordance with the views of a majority of the electors leaving the question to be decided by the electors.

All they wanted was to gratify themselves and a few of their neighbors; but they could not count on it, for it was carried against them.

Now, a word to the Electors of King Township. You are well aware that a small portion of the front of the Township will vote for Schools, and they have a good reason for so doing. Yonge Street is at their doors; and those who live on the 2nd and 3rd Concessions have good reason to do so. They do not want the money to go to the Clergy Reserve, but they want it to go to the Clergy Reserve.

THE NEXT MEETING OF THE MUNICIPAL COUNCIL, of the Township of East Guilford, will be held in the **MANSION HOUSE, Sharon, on SATURDAY, December 31, 1839,** Commencing at 10 o'clock, a.m.; of which all interested are required to take notice, and act accordingly.

By Order,
J. T. STOKES, Town Clerk.
Sharon, Oct. 27th, 1839.

NOTICE

Is hereby given that a petition of the resident Freeholders and Freeholders of the village of Holland Landing and vicinity, in the Township of East Guilford, County of York, in the State of New York, for the annexation of said village and vicinity to the Town of Holland, County of York, in the State of New York, has been presented to the Board of Supervisors of the County of York, and that said Board of Supervisors have resolved to refer said petition to the Board of Aldermen of the Town of Holland, County of York, in the State of New York, for their consideration. Truly this 1st day of January, 1840.

Witness my hand and the seal of said County of York, at Albany, this 1st day of January, 1840.

JOSEPH W. BROWN, County Clerk.

RESPECTFULLY beg to intimate to their friends and acquaintances that they have just received from the

Magnetic Plaster

THIS enormous quantity of this Invaluable Remedy has been purchased by citizens of the United States during the last time it is to be offered to the public. The reason for this extraordinary success is simply in the actual truth and value of the article. **Booth's Magnetic Plaster** cures without hurting the friend. It performs all that is promised, and cures what is in your room. Truly this is a Victory—peaceful and bloodless—but we believe not less glorious than the triumphs of war, with its fright of carnage and
